DIFFERENTIATORS

Consultadd stands out as an IT service provider and emergency supplier with its robust in-house training team, mastery of Salesforce, AWS and Oracle, and the ability to deploy resources across the U.S. Our extensive bench of skilled candidates ensures rapid response and exceptional service delivery. Choosing Consultadd means partnering with a dedicated team that meets the rigorous demands of government contracts, making us a top choice for officers seeking reliable, quality-driven solutions.

PAST PERFORMANCE

Social Security Administration
The DIP-MATPSC project improved the Social Security Administration's ability to process checks and money orders by developing custom document imaging and automation software. This software enabled efficient payment deposits, streamlined data integration across SSA's cloud infrastructure, and enhanced data management.
- **Start Date:** 02/21/23
- **End Date:** 04/20/24
- **Value:** 135000.00

Ontario Public Services
Consultadd led the OPICS project for Ontario Public Services, aiming to enhance public service delivery through a comprehensive case management system. Our team is developing customized software, integrating with provincial databases, and enabling real-time data access and workflow automation. The solution improves case processing speed and accuracy while ensuring secure data handling and user-friendly interfaces for government employees and public stakeholders.
- **Start Date:** 11/13/23
- **End Date:** 10/30/25
- **Value:** 25000.00

NYC School Construction Authority
Consultadd is leading the EduBuild Analytics Platform project for the NYS School Construction Authority, focused on transforming educational infrastructure project management. Utilizing Salesforce as the core CRM, the platform integrates with AWS cloud services for scalable data storage and real-time analytics. This enables advanced predictions for project timelines, budget forecasts, and resource allocation. Additionally, AI-driven tools enhance risk assessment and management, ensuring precise and efficient project deliverables.
- **Start Date:** 06/27/22
- **End Date:** 01/05/24
- **Value:** 250000.00
